Each Meritor Brake Lining Kits consist of:
Lining pieces enough to rivet 4 shoes (1 axle) and the corresponding amount of rivets

LEGEND:
O/S - Oversize D/O/S - Double Oversize

MBLK “3 SERIES” PREMIUM GRADE BRAKE LINING KIT - INCLUDES MG2A BRAKE LININGS

Each MBLK “3 Series” Brake Lining Kit includes the necessary components to complete 1 axle - MG2A Brake Linings and appropriate number of rivets for 4 brake shoes.

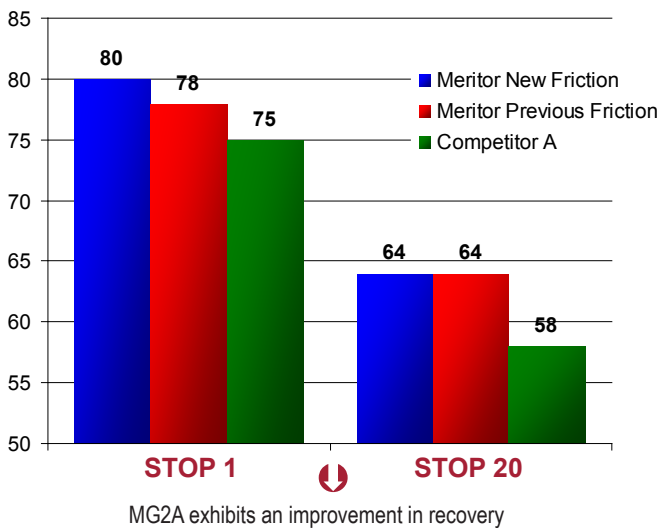

MG2A RETARDATION FORCE

MG2A BRAKE POWER (FADE)

MG2A RECOVERY

TECHNICAL DATA	
Brake:	16 1/2" x 7" Meritor S Cam
Normal Friction:	.503
Hot Friction:	.495

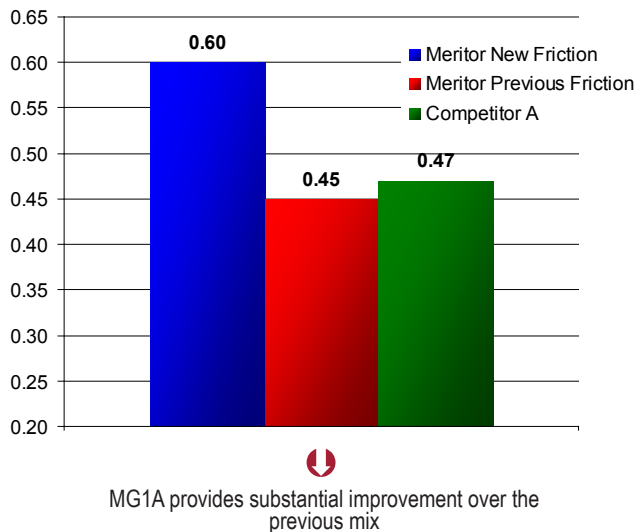

FEATURES AND BENEFITS

- Durability for stop-an-go urban driving
- Provides strong brake power for all vehicle applications in severe service
- Superior all-around performance
- Ideal for trucks, tractors, trailers, buses, tippers and low loaders
- MG2A lining is a glass fibre based premium medium-to-high non asbestos friction material
- Meets the inertial dynamometer requirement of the FMVSS 121 brake standard

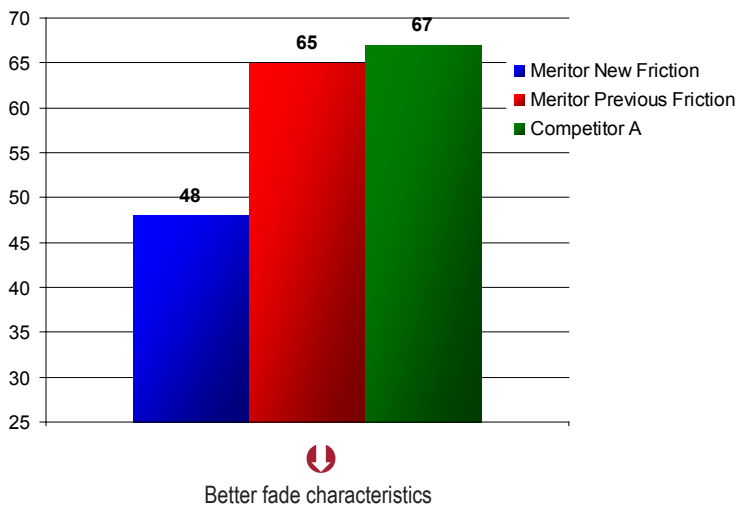

MBLK “8 SERIES” STANDARD GRADE BRAKE LINING KIT - INCLUDES MG1A BRAKE LININGS

Each MBLK “2 Series” Brake Lining Kit includes the necessary components to complete 1 axle - MG1A Brake Linings and appropriate number of rivets for 4 brake shoes.

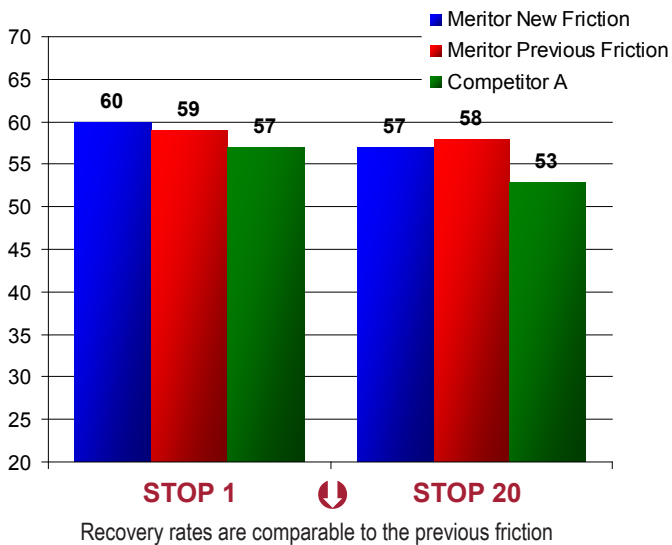

MG1A RETARDATION FORCE

MG1A BRAKE POWER (FADE)

MG1A RECOVERY

TECHNICAL DATA	
Brake:	16 1/2" x 7" Meritor S Cam
Normal Friction:	.429
Hot Friction:	.443

FEATURES AND BENEFITS

- Exceptional stopping power
- Excellent fade and recovery characteristics providing outstanding reliability and durability
- Delivers excellent performance over a wide range of S-cam and wedge brake applications on trucks, tractors and trailers
- Recognised as a dependable, long lasting and versatile performer at a competitive price
- Delivers a level of durability and stability normally found only in higher cost friction
- MG1A lining is a glass fibre based medium friction, non asbestos material
- Meets the inertial dynamometer requirement of the FMVSS 121 brake standard
